

AI for All : Tools and Techniques

Following UGC recommended New NEP 2020 Syllabus

Syllabus covered under
University of Calcutta, Vidyasagar University and University of
Kalyani

Written by

Prof. (Dr.) Biswapati Jana

Computer Science, Vidyasagar University

Mr. Debkumar Bera

Computer Science, Vidyasagar University

Dr. Sharmistha Jana

Midnapore College [Autonomous]

Contents

Chapter-1: Introduction to Artificial Intelligence	1-25
1.1. Introduction	
1.2. Definition and scope of AI	
1.3. Historical overview and key milestones	
1.4. Differentiating AI from human intelligence	
1.5. Summery	
1.6. MCQ	
1.7. Review questions	
1.8. Abbreviation	
Chapter- 2: AI Subfields and Technologies	26-61
2.1. Overview of Neural Networks	
2.2. Types of learning	
2.3. Overview of Machine learning	
2.4. Overview of Natural language processing (NLP) And Computer Vision	
2.5. Summery	
2.6. MCQ	
2.7. Review questions	
2.8. Abbreviation	
Chapter- 3: Applications of AI	62-114
3.1. Introduction: The AI Revolution— Transforming Our World	
3.2. AI in Healthcare: A New Era of Diagnosis, Treatment, and Medical Imaging	
3.3. AI in Finance: Transforming Fraud Detection, Algorithmic Trading, and Risk Assessment	
3.4. AI in Transportation: The Road to Smarter, Safer, and Greener Mobility	
3.5. AI in customer service and chatbots	
3.6. AI in Education: Revolutionizing Learning with Personalized Tools and Intelligent Tutoring Systems	

- 3.7. AI in research: Tools and Techniques
- 3.8. Summery
- 3.9. MCQ
- 3.10. Review questions
- 3.11. Abbreviation

Chapter-4: Ethical and Social Implications of AI

115-148

- 4.1. Introduction
- 4.2. Bias and fairness in AI systems
- 4.3. Privacy and data protection
- 4.4. Impact of AI on employment and the workforce
- 4.5. AI and social inequality
- 4.6. Summery
- 4.7. MCQ
- 4.8. Review questions
- 4.9. Abbreviation

Chapter-5: Other Important Issues

149-163

- 5.1. Introduction
- 5.2. Ethical guidelines and responsible AI practices
- 5.3. AI and Innovation
- 5.4. Emerging trends and future directions in AI
- 5.5. AI and creativity: Generative models and Artistic applications
- 5.6. Summery
- 5.7. MCQ
- 5.8. Review questions
- 5.9. Abbreviation
